Re: Rider Support

To whom it may concern:

I am submitting this resume to see if I may be considered for your rider support program. I started riding dirt bikes when I was five and started racing AMA District 36 cross country last year. I am 14 years old and currently racing in the "C Girls" class. I have held second place overall in the points lead for C Girls for the last 6 rounds of the District 36 Youth Cross Country Series. My goal for this season is to move up to "B Girls". My parents are very supportive and encourage me to do my very best at cross country racing and in school. I am pulling a 3.6 grade point average in school and have been accepted to Norte Dame San Jose for my freshman year of High School. Any help from you would be great and would help my parents with the cost of racing. My dad and I have purchase a considerable amount of gear and supplies from your store. My racing resume to date is below.
